4	The Applied Psychology and Special Education Lab	The lab is used for teaching applied courses such as tests and measurements, clinical psychology, psychopathology, physiological psychology, and assessment and diagnosis in special education and sensory impairments. In addition, the lab is used to offer various training courses in fields related to applied psychology and special education.	connected to the Internet. This lab contains 14 seats and 2 computers. It includes various cognitive and clinical assessments such as the Stanford-Binet assessment, the Wechsler intelligence and mental ability assessment, and the Vineland test, in addition to drawing tests and both electronic and paper versions of the Minnesota Multiphasic Personality Inventory (MMPI). The lab also contains anatomical models of the human body. It provides a practical environment for students to apply theoretical knowledge in the fields of psychology and special education, allowing them to experience and use modern psychological assessment tools.
